

**NAME: Georgia Harmsworth**

**TYPE OF GOVERNOR: Co-Opted**

**MINI BIOGRAPHY:**

Originally from Yorkshire (not that you'd ever guess from my accent!) I grew up moving to a different country every 2 – 4 years. After a few years in the bright lights of London, I've now settled in Barnham with my Husband and loving the sunshine of the South Coast. Professionally, I am a management consultant specialising in electric and gas smart metering with a focus on process design and change management. Education is something I've always been passionate about and I'm very pleased to be able to play an active part at Downview.

**Likes:**

I love being outside and you can generally find me in my garden or out walking. I love to cook (not always successfully!), seeing friends and spending sunny afternoons in a pub garden. My husband and I spend most of our holidays touring around Europe and the UK on our motorbike.

**Dislikes:**

Housework, celery, rail replacement bus service and being late.

**My favourite thing about Downview Primary School:**

The lovely welcoming atmosphere from the team.
