

**January 2020 Suggested activities that your child **may** like to do at home**  
**to support Communication, Language and Literacy**

1. To use **letter sounds** to write about something you have done in the holidays that you would like to share with the rest of the class. Encourage all efforts, (try **not** to use the letter names or tell your child which sounds to write, but encourage your child to write the sounds that they can hear) e.g. - bsct-biscuit, cnma - cinema.
2. Share a book with your family. Can you talk about what is happening in the story and say who your favourite character is and why?
3. Please practise writing your name using your name card starting at the green dot and finishing at the red like Wizzy Woo tells you to.
4. Can you draw the different characters in The Gruffalo story? Can you label them?

**Suggested activities that you **may** like to do at home**  
**to support Mathematical development**

1. Count sets of different objects by lining them up and counting carefully. E.g. How many forks are on the dinner table?
2. In our classes our new groups are names of 3D shapes. Can you tell your family your group name and a property of that shape? Can you find anything in your local environment which is that shape?
2. Order numbers 0-10 or 0-20. Ask your family to take out a number - can you say the number that is missing?
3. Can you draw a picture of a Gruffalo character? Can you draw another one that is **smaller**? Can you draw another one that is **bigger**?

*Any of the above work that you complete please send in pictures, writing or photographs that we can put in their learning journeys - thank you.*

**Don't forget to keep sending in your 'Wow Wee' slips.**
