

Year 5 document for home-learning in response to potential school closures -as a result of Covid 19

Literacy:

In literacy, we have been reading and sharing Greek myths; the children are preparing an ideas booklet and have been researching the key components central to all good myths and have already made a model of their monster out of clay. In light of this please may your child write their own myth.

They will need to:

- write a first draft
 - read aloud and underline any spellings they are unsure of so they can check their correct spelling; add in any missing punctuation (capital letters for names, places, or beginning of sentences; full stops, commas, exclamation marks, question marks; brackets and dashes for parenthesis) and make sentences make sense without running on.
 - Children need to edit their stories ensuring the use of different length sentences, show don't tell me description, relative clauses (who, which, that, whose) and a variety of sentence starters.
 - Re-write out in best. Draw some illustrations if they like!
- CGP English workout books to be sent home – 10 minute workouts to be done regularly
 - Complete a diary of events as this will be historical evidence of a particularly memorable time which they will look back on and remember.

Maths

In maths, we have spent 6 weeks learning about fractions and we were moving on to decimals and percentages please use the online program 'My maths' on the computer to revise and teach this. The can be found in the program under year 5 lessons – number- fractions-choose the programs which look at improper and mixed fractions, adding and subtracting fractions, comparing fractions , equivalent fractions and other year 5 lessons to do with fractions. If you scroll down further you can access the decimal and percentage units. We suggest one of these lessons to be watched and completed per session.

User name: downview

Password: share

- CGP Maths workout book to be sent home - 10 minute workouts to be done regularly

TTRockstars

The children could use this opportunity to practise their times tables. They may use Times tables Rock stars to do this as well as paper and pencil – perhaps creating their own speed grids, which they could see how quickly they can complete and monitor their progress – Can they get quicker each time?

As well as My maths, we have been informed that *Twinkl* are allowing all parents unlimited free access to their online resources. This would be an amazing opportunity to download and print off work sheets to support their learning in other curriculum areas. They have lots of arithmetic tests available for maths.

Science

We have been learning about light. The children could make their own sundials and do their own experiments drawing around their shadows at different times of the day – if it's sunny!

History

Ancient Greece – study all areas of ancient Greek life as well as the birth of democracy, the Olympics and the Gods.

Grammar

- CGP Grammar and Punctuation to be sent home work through book systematically and revise pages already completed. Anything that is listed as Year 5 (verbs, adverbs, nouns, adjectives, pronouns, pronouns for possession, modal verbs, main clauses, subordinating clauses, expanded noun phrases, prepositions, determiners, parenthesis, direct speech, conjunctions).

Reading

Read regularly (five books sent home) and when they finish a book it would be great if they could write a short review of the story and a brief summary of the book as well as some sketches of the main characters. Also interactive books can be accessed online on the following website:

<https://worldbook.kitaboo.com/reader/worldbook/index.html?usertoken=Mjk5MzQ6MTpJUjA5MjAxNjoyOmNsaWVudDE2OTc6MTY5NzoyMjE2Mjg4OjE6MTU4NDM4MDExMzA2Mjp1cw==>

- CGP Comprehension book to be sent home

Computing

The children have their log in details for purple mash and could complete any of the computing section. We have been focussing on coding – they could move onto creating their own game from the knowledge they have gained.

Outside learning

It is important that your children get outside into the garden when the weather permits, to enjoy some fresh air! They can keep fit using any of the exercises we have been practising in PE (step ups, Burpees, shuttle run, skipping). They might like to use youtube to do their 5 minute yoga routine each day. This will help them to feel calm and focussed.

<https://www.youtube.com/watch?v=atOPHzBDqyY>

Any other outside learning would be amazing. They could use this opportunity to do some sketching, painting, collage work, gardening, poetry, photography?

Free writing of any description would be fantastic – fiction or non-fiction.

With adult supervision they could help with the household chores..... Cooking, washing, cleaning – anything to keep them occupied and stimulated.

Also, please see the Year 5 homework document already posted on the school website.

Spellings:

Attached below are the spellings that we have been practising this year – the ones shaded in blue are our daily spellings that we practise using the method **Look- Cover –Write- Check**. The ones in white are the spelling patterns that we have been learning. The children learn their spelling in a wide variety of ways, all of which are in the booklet that we sent home- Rainbow writing; dice games, battleships etc.

Spelling List 5				
according	determined	muscle	symbol	
achieve	develop	neighbour	system	
aggressive	dictionary	occupy	thorough	
ancient	equipment	opportunity	twelfth	
apparent	especially	physical	vegetable	
vicious	innocent	preferring	receive	
ambitious	independent	preferred	ceiling	
cautious	independence	transferring	receipt	
nutritious	confident	transferred	protein	
anxious	confidence	transference	caffeine	
available	excellent	profession		
average	explanation	programme		
awkward	familiar	recognise		
bargain	forty	relevant		
bruise	frequently	shoulder		

official	comfortable	referring		
special	reasonable	referral		
potential	enjoyable	referee		
essential	reliable	reference		
initial	considerably	preference		
category	identity	rhyme		
competition	individual	rhythm		
controversy	language	signature		
curiosity	lightning	stomach		
desperate	marvellous	suggest		
observant	possible	co-ordinate		
observance	horrible	co-operate		
observation	terrible	re-enter		
hesitant	incredible	re-educate		
tolerant	sensible	self-esteem		

P.E. and keeping active

With the schools closing the WSW SSP have liaised with colleagues, partners and researched high quality online videos for children to use at home to stay active. Some of which you will have seen some of these via the Active Sussex Enews. Please share with parents/pupils/staff where you see relevant.

We will introduce the “**WSWSSP weekly Twitter Personal challenge**” Starting Monday 23rd March a challenge will be released via our twitter account for children to attempt. Consistently trying to better their score. We’d like children/parents to share their success of their “improvement” not final score.

https://twitter.com/WSW_SSP

The Regis School PE dept will be launching their **Instagram challenges** designed by TRS Pupils. To access this pupils/parents/staff need to: download instar-gram, follow @trs-pe and watch stories with the challenges. If they wish they can film themselves or take picture and tag @trs-pe on the video/picture post.
