

### Literacy

We will be reading the text 'Wonder' by R. J. Palacio and responding to what we read in writing as well as in whole class reading sessions.

The children will be writing diary entries, autobiographies and exploring the feelings of characters within the book.

### Art

In DT we are sewing cushions and in Art we will be painting self-portraits incorporating parts of animals that we feel represent our personalities.

### Science

We will be learning about lifecycles of animals, including humans. As well as classifying living things into groups based on their characteristics.

### PE

We continue with our country dancing, creating dances in groups, as well as working on our athletics skills ready for sports day.

### Maths

We will continue to develop written and mental strategies for all four operations to improve speed and accuracy in our maths sessions as well as weekly arithmetic lessons.

We will also be working on

- Geometry - properties of shapes and angles in a triangle
- Statistics - line graphs, pie charts and mean average

Use the lessons on [www.mymaths.co.uk](http://www.mymaths.co.uk) to support your learning

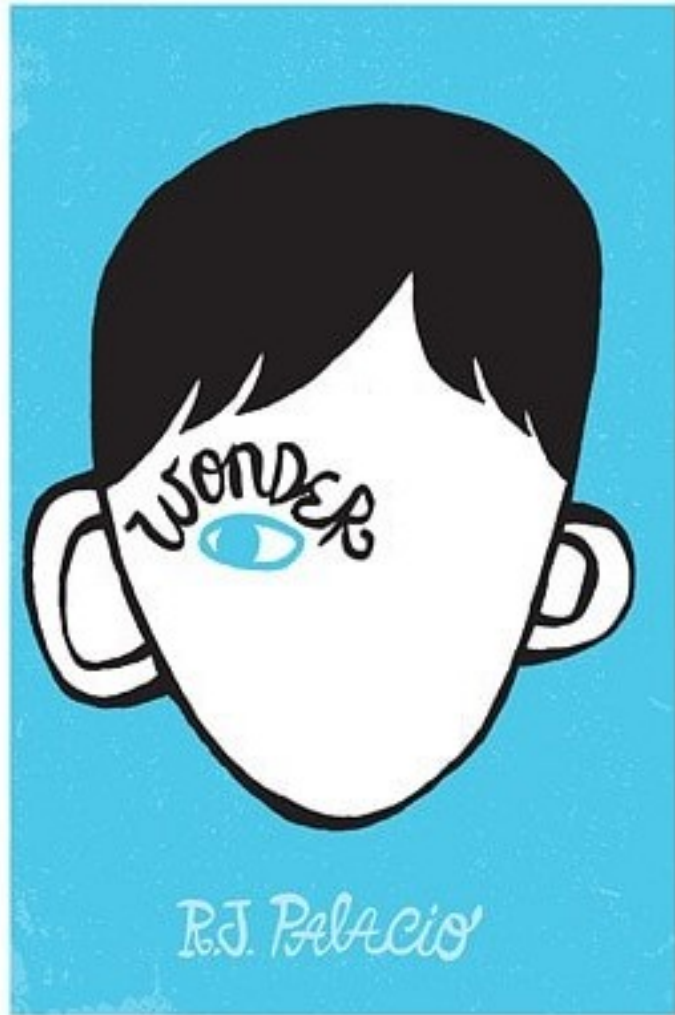

## Wonder

### Computing

This term we will be using Purple Mash to create our own coding and learn about Spreadsheets.

### Transition to secondary school

We hope that the children will get to visit their new schools this term. We will be creating year books so that the children can reflect on their time at Downview. We hope that the children will have advice to share with next year's year 6 and will make videos to show them.
