

By Chestnut, Maple, Holly, Pear and Blueberry.

Our Downview journey has memories made,
Of trips and lessons that will not fade.
Whilst working with others our confidence shows,
As we learn and develop our knowledge grows.

With independence, help and support,
Our brains getting bigger the more we are taught
We even learn things as we play,
Teamwork, cooperation, listening to what others say

We are learning about who we want to be,
Make good friends like you and me.
At Downview we always care and share,
Look around you, there is always someone there.

Be the best and try, try, try
Soon you'll get there and fly high.
Be a tough tortoise, work hard every day,
Keep that smile on your face along the way.

Downview is our school, full of pride and joy,
For each and every girl and boy
We grow from a caterpillar to a butterfly,
And we never want to say bye bye.
